TWIN-EAGLE SALES AND EXCHANGE CIRCUIT

In our Feb.-March Bulletin we mentioned that member R. J. Burkiewicz has offered to organize a Sales and Exchange Circuit. This should help Members to build up their collections of Poland at a minimum cost.

We have now been advised that the first Circuit packet is on the way. The second and possibly the third will be mailed during this month.

Mr. Roman J. Burkiewicz, Manager of the Circuit wishes to express his gratitude and appreciation to those Members who have responded and given support to this idea.

Members who have not yet sent in their applications are cordially invited to do so.

It is strongly recommended that everyone join in this enterprise. It was organized for the sole purpose of aiding our members and the collectors of the stamps of Poland to secure study material and other elusive items. It always has been the hope of the Polonus Philatelic Society that more members participate in research and study of the various stamps that were issued in multiple papers, perforations and shades. This circuit should aid those who would like to start a project.

The Circuit will also endeavor to furnish Poland material not usually found in the average dealers stock.

There is no obligation to buy or to make any contributions also there is no membership or admittance fee. Should the material be not up to expectations members can suspend their membership at any time. Give it a trial and we are sure you will not be disappointed or regret it. Send your applications now. Members who have not received the forms as yet are requested to write to the manager of the Circuit—

Polonus Philatelic Society is non-political. The views expressed by the authors of articles appearing herein do not necessarily express the views of the Polonus Philatelic Society.

New issue information is slow in arriving, but we are getting it.

As to obtaining complete sets at the Post Offices, this is another matter. It is our understanding that the sets are broken up and distributed to various locations and some values not released to the Post Offices at all or at best a small quantity so as to legalize the issue.

Complete sets can be purchased from Varimex at approximately 4 zloty for a \$1.00 but why some sets are priced over face by a government agency is beyond me. In these instances these sets in my opinion should not be recognized, since they are being issued for speculative reasons. It should be mandatory on every government barring NONE that a minimum of a single and a block be sold for a reasonable time at face to anyone desiring to purchase. If this is not permitted I think we should refuse to recognize them as philatelic items.
