Polonus Launches Drive for U.S. Postage Stamp to Honor Poland's Millennium of Christianity

Myron E. Steczynski, chairman of the Polonus Committee to Honor Poland's Millennium of Christianity with a U.S. Postage Stamp in 1966, sent letters to more than 100 prominent Pole-Americans and other influential persons all over the country with an

sider every reasonable request such as this for a commemorative postage stamp, we should keep some vital factors in mind.

In the United States there are as many as 900 appeals a year for a commemorative stamp. Every ethnic or any

appeal to make such a stamp a reality. The letter tells of the nationwide committee being formed to urge our Postmaster General to issue this stamp. Persons receiving the letter are asked for their views on how this committee should proceed, what ideas or historical facts should be stressed and what suggestions they might have for a design. The early responses to this letter have been not only encouraging, but really inspiring.

The Polonus committee aims to unify the efforts of many local millennium committees which have already laid the groundwork for the issue of such a U.S. stamp. While we have a friendly Postmaster General in Mr. O'Brien and an administration that will con-

sider every reasonable request such as this for a commemorative postage stamp, we should keep some vital factors in mind. In the United States there are as many as 900 appeals a year for a commemorative stamp. Every ethnic or any

other group or affiliation appeals to our representatives and executives to honor their pet idea with a stamp. Many of these ideas are vague, many have no direct relationship to our country and others are simply out of tune with the country itself. Let us be sure that we are not in these classes. Congress has washed its hands from this cumbersome process by laying the matter in the lap of the Postmaster General. He in turn has a Citizens Stamp Advisory Committee of qualified persons to help him select both the issue as well as the best design for each issue. As a matter of policy, commemorative stamps are limited to about fifteen per year.

Naturally, stamps are selected in an order of preference — those closest

to the hearts, pride or achievements of Americans are given first choice. Any religious connection on a U. S. stamp until now has definitely been out — we do not even have a religious connotation on our annual Christmas stamps.

What is important is that by affiliating itself with western civilization, Poland many times bore the brunt of eastern invasions to preserve the culture and ideals of Western Europe. This had a profound influence on the later settlement and development of America, which facts must be recognized.

As you no doubt are aware, the celebrations to honor the Millennium of Poland are being held wherever there beats a Polish heart, but many large cities of America are planning to build their programs around the visit of His Eminence Stefan Cardinal Wyszyński to America in the summer of 1966. A tremendous manifestation is planned on August 28, 1966 in Chicago, which is the largest Polish city outside of Warsaw. It will be our suggestion to the Postmaster General that if our appeal for a stamp is realized, that the first day of issue be in Chicago to coincide with the Cardinal's visit.

Polonus is highly encouraged by the resolutions which have been presented in both Houses by Congressmen Edward Derwinski (R-Ill.), Henry Helstoski (D-N.J.), and Senator J. Caleb Boggs (R-Del.) authorizing and directing the Postmaster General to issue a stamp in 1966 for the millennium of Poland as a Christian nation. The bill is designated as H.R. 11654 and Mr. Helstoski's remarks on the floor of Congress are so beautiful that they will be included in the next issue of the Polonus Bulletin with a request that every Polonus member urge their representatives to support this bill.

If you have ideas that might be helpful in a creative or in an administrative sense, or would help our public relations, kindly send them in. Above all, if you are blessed with an imaginative or artistic flair or skill, please submit your sketch or thought. Send all correspondence to

PROGRAM MEETING OF SEPT. 4th

Polonus members who attended this meeting heard a talk by our member George C. Kobylka, publisher of the popular K-Line Album Pages. In doing research on his album pages for the Olympic Games Issues, George came across many interesting findings, not only pertaining to philately but also concerning the athletes, the games and the countries participating. This was the subject of his talk.

Mr. Kobylka showed his album pages as well as magazine and newspaper clippings and other material pertaining to the Olympics. The talk was to have been limited to a half hour, but it was so interesting that an hour passed before we realized it. The evening was finished off with a beeba.

KATOWICE PHILATELIC EXHIBIT

The 9th National Philatelic Exhibition "Katowice '65" took place Sept. 5 to 19, 1965. From over 600 exhibits about one-third received awards.

Among the award winners were Polonus members Dr. M. A. Lipiński for Silesian Specialized and for Baden Cancellations — two silver medals, and for literature — a bronze medal; and following in his father's footsteps ten year old Dariusz Lipiński won a silver medal for this "Tale About My Warszawa."

Another active Polonus member of long standing, Marian Duński received recognition with a silver plated medal for his research collection of Przedbórz Locals and a bronze medal for his literature — a monograph on Przedbórz and Polish Balloon Mail of 1926-29.
